

# CALLISTA BIO

Origin: Germany

Callista is a relatively new hop that was developed a little over ten years ago at the Hop Research Center in Hüll as part of the research for the development of aroma varieties.

It is a descendant of the Hallertau Tradition and a

Huell male. The word "Callista" can have different meanings, but in Greek, it should mostly mean "the most beautiful"

Due to a low cohumulone content, Callista will bring a smooth and

balanced bitterness.
