

# SPALTER SELECT BIO

Origin: Germany

The Select was introduced in 1993. It was bred in the Hüll region of Germany as a replacement for Spalt with the aim of increasing production yields and disease resistance. From this point of view, it works well!

It is therefore a cross between

the Spalt and the Hallertau Mittelfrüher and benefits from their respective characteristics.

It is known to be slightly spicier than Spalt. For those who are interested, it's a nice substitute for

Saaz 🤔

## TYPE OF HOP:

Aromatic

## USE:

Kölsch, Belgian Ale, Lager, Bock, Pilsner, Marzen, Helles

## SUBSTITUTES:

Saaz, Spalt, Hersbrucker, Tettnang
