

CASHMERE

The Cashmere is a fairly new hop and brand new to Organic!!! It was developed by Washington State University and brought to market in 2013 by marrying Cascade and Northern Brewer. Interestingly, its alphas are higher than those of Cascade. Not to be missed for beers that want a kick!

TYPE OF HOPS

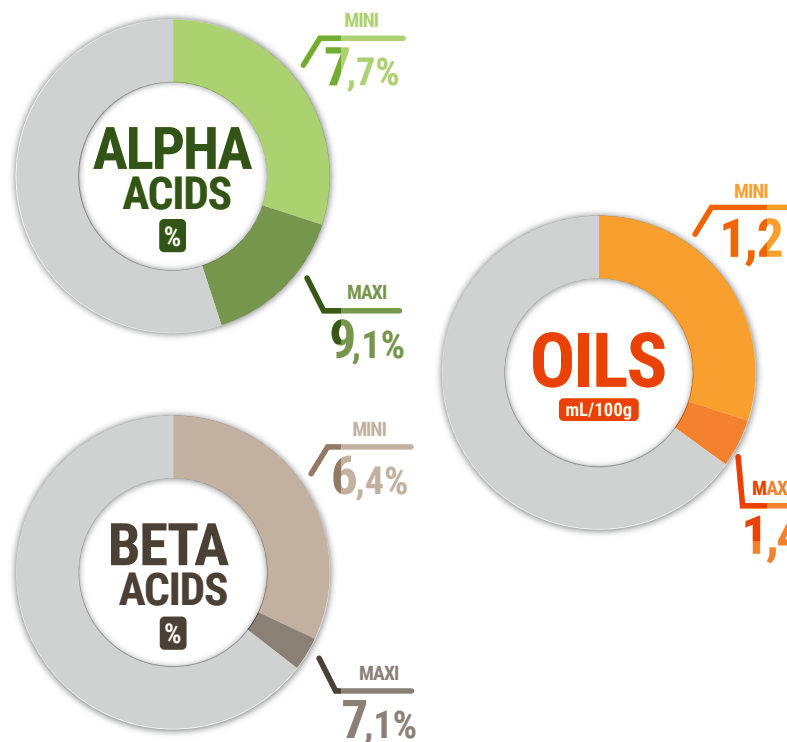

Dual

FORM

Pellets

ORIGIN

US

ACIDS

Alpha: 7.7 - 9.1%
Beta: 6.4 - 7.1%
