

# WAI-TI™

The Wai-Ti™ Organic is a hop that has been bringing a great freshness of lime and nuts since it was released in 2011. It inherits the Mittelfrüh and has the Liberty as its grandfather.

With a low level of alpha acids and cohumulone, WAI-TI™ Organic develops a very mild bitterness that predisposes it quite nicely to single hop beers.

Note that when added at the mid/end of the brew, citrus fruits are placed in the background and the nuts take over.

## TYPE OF HOPS

Aromatic

## FORM

Pellets

## ORIGIN

New Zealand

## ACIDS

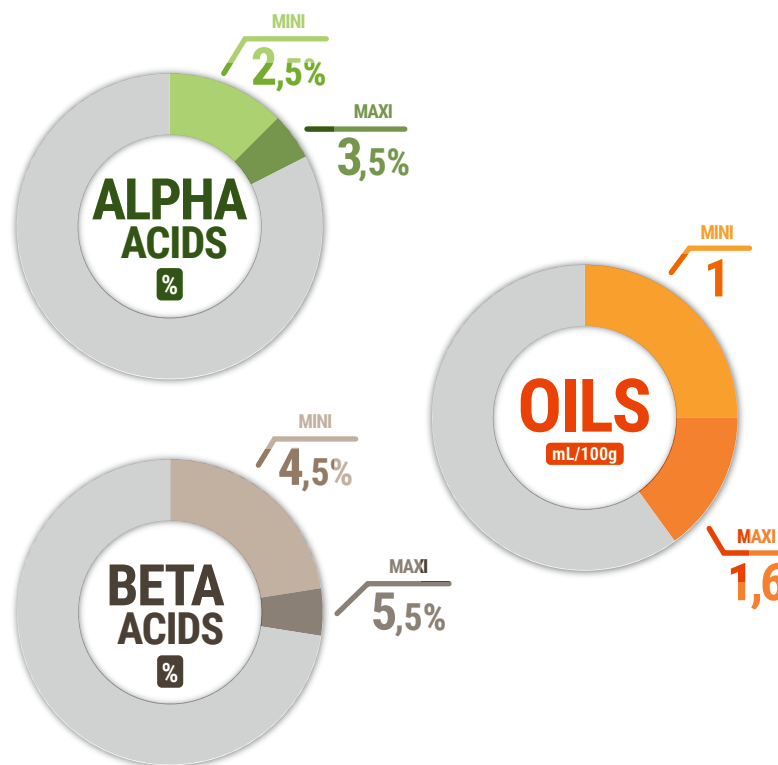

Alpha: 2.5 - 3.5%  
Beta: 4.5 - 5.5%  
Cohumulone: 22 - 24%

## CUMULATIVE OILS

1 - 1.6ml / 100g

## POSSIBLE SUBSTITUTES

Riwaka

## USE

Pale Ale, Lager, IPA, Wheat

## CHARACTERISTICS

Peach, Apricot, Spices, Lime, Tropical fruits
